

Tred-lite
Modular Footwear Collection

 **steeper**
Creating life's turning points, together

Tred-lite

Diabetic specifications

Soft leather, moleskin lining with minimum seams, rim toe puff and padded collars can be added to all styles to create a complete diabetic specification.

Lightweight, practical and customisable footwear

Available in 17 leather (calf and soft leather) colour options, nubuck and neoprene, the lightweight Tred-lite range is practical, hard wearing and customisable, offering a mixture of styles, fastenings and colour combinations.

Adaptations on Tred-lite

Footwear adaptations and trial fitting service available, along with repairs and adapts.

Specialist sole alternatives

Standard sole and heel provided in lightweight micro EVA, with specialist Vibram® hard-wearing commando also available.

Bespoke insoles ensure best clinical outcome

With a range of insole densities, complementary insoles manufactured at the same time as the footwear ensure the best possible clinical outcome, particularly for total-contact insoles to distribute load and reduce peak pressures on vulnerable areas.

Shock absorbing, lightweight insole support

Using the highest quality EVA, our bespoke insoles retain their shape.

The semi-bespoke Tred-lite collection offers a variety of fashionable styles to provide comfortable and lightweight footwear for men and ladies. As an introduction to the range, this guide includes the current collection and presents the wide range of colours, options and combinations to assist you with your order.

Colour and Material Options

The Tred-lite footwear range is available in calf and soft leather, nubuck and neoprene material. Certain styles may be limited to one type of material depending on the design. The shoes in this brochure are shown in standard colours and additional colour options (outside of the standard range) to illustrate a mixture of colour and style combinations. A small surcharge applies to colours (e.g. patent) that are outside of the standard collection.

- Leather - available in 17 different colours from the standard range in calf and soft leather - French Navy, Navy, Black, White, Light Beige, Dark Beige, Taupe, Mid Grey, Fuchsia, Cherry Red, Pillar Box Red, Purple, Burgundy, Tan, Dark Brown, Mid Brown, Bottle Green
- Nubuck - available in standard colours: Mustard, Fuchsia, Midnight Blue, Jet Black, Purple, Milk Chocolate and Charcoal.
- Neoprene - available in standard colours: Black and Brown.

For accurate depiction of colours and shades, please contact our Customer Services department for a swatch sample. A digital swatch palette is also available at www.steepergroup.com, however please note that accuracy may vary between computer screens, therefore a physical swatch should always be referenced.

Strap Options

Most styles are available in a choice of lace (flat or round) or hook and loop fastening, however certain styles are limited to lace only or hook and loop only depending on the design. Low opening styles are available as standard and some styles can be made into a low opening option on request - by 15mm or by 25mm, please specify this on your order form. See icons for details.

Sole Options

We provide the standard sole and heel in micro EVA, however we can also provide Vibram® hard-wearing commando as an alternative sole option (please note there is an additional cost for this). If you require a different sole from the standard, please specify this on the order form.

Default Sole Colours

The following table outlines the default sole colour to match the upper:

Please note: all trainer soles are white by default.

Upper	Default Sole Colour	Upper	Default Sole Colour
French Navy	Black	Cherry Red	Black
Navy	Black	Pillar Box Red	Black
Black	Black	Purple	Black
White	White	Burgundy	Black
Light Beige	Brown	Tan	Brown
Dark Beige	Brown	Dark Brown	Brown
Taupe	Brown	Mid Brown	Brown
Mid Grey	Black	Bottle Green	Black
Fuschia	Black		

Insoles

Tred-lite footwear is provided with 2 x 3mm Poron® material insoles and 1 x 3mm top cover.

Sizing and Lasts

Different last fittings are available. Please see the towards the back of these pages for sizing charts.

Diabetic Footwear

The majority of styles are made to a diabetic specification, which incorporate soft leather uppers, antelope quarters with moleskin lining, minimal seams, padded collars, rim toe puff, and leather quarter lining. We are able to manufacture your preferred style in a diabetic specification, please clearly state your requirements on the order form.

Neoprene Footwear

- Moleskin vamp linings
- Rim toe puff

Footwear Adaptations

We carry out a full range of footwear adaptations and also offer a repair and adaptation service for patients' own footwear. Please get in touch with our Customer Services department for further details.

Tred-lite Insoles

Steeper can provide custom made insoles using either foam impressions, casts or scans of the foot that are manufactured to the highest standards. Frequently, clinicians use total-contact insoles alongside modular footwear to distribute load and reduce peak pressures on vulnerable areas. As the interface between footwear and the foot, the correct insole can ensure the best possible clinical outcome. By manufacturing footwear and insoles together, we ensure that each device complements the other and functions in conjunction.

Base Materials for CAD-CAM

Our bespoke manufactured insoles use the highest quality EVA (Ethylene Vinyl Acetate). This lightweight material offers shock absorption and retains its shape through its hard wearing properties.

The densities available are: low, medium, high, soft dual and firm dual density. Other options are also available such as Nora, Plastazote and Polyurethane. Please contact Customer Services for a complete list of materials.

Top Covers Available:

- Grey poron and medical grade porons
- Multi-layered materials including Nora™
- Memory foams, sponge rubber, Podotech™ gel
- Anti-bacterial covers
- Leather, blue oyster/pearl, pig skin, black cape

Please contact our Customer Services department on orthotickenquiries@steepergroup.com for a complete list of top cover materials available to order.

Ordering & Delivery Information

How to Order

Creating footwear exactly to our customers' specifications provides an increased likelihood of a perfect fit for the patient. Therefore, please note that providing fully correct information is essential at the initial order placing stage, as re-working such as relasting or crafting new uppers after the rough fitting will be charged for.

Please also note that all footwear made to order or with any customisation that is incorporated during manufacture will render the footwear non-returnable.

When ordering a product from the Tred-lite footwear range, please include all the information below to enable us to produce your order accurately to the required specifications, as well as deliver the item on time.

- Style (name of shoe)
- Colour (if applicable, the colour combinations and numbers)
- Fastening option
- Material
- Size and width measurements
- Diabetic specifications
- Any other adaptations or amendments

Please send your completed order form to orthotickenquiries@steepergroup.com, including all the required details. You may wish to refer to the sizing charts for specific Tred-lite shoe, trainer and boot sizes. For any order queries or to request an order form, please contact us on 0113 207 0435.

Trial Fitting Service

As part of our customer service, we offer a free trial fitting service on all our modular footwear. This allows for minor alterations before the footwear is finished. Charges may apply for additional trial fittings.

It is essential that you specify on your order form if a trial fitting is required, otherwise the footwear will be finished. Major alterations after a trial fit e.g. Uppers re-cut, will incur a charge.

Returns & Refunds

Shoe Styles

The shoes listed below are returnable for a full refund providing that they are returned within 28 days of receipt, in all of their original packaging and in full re-saleable condition.

- Ladies' styles on standard lasts (sizes 3-6) without adaptations/modifications - in black, brown and navy
- Men's shoe styles on standard lasts (sizes 8-11) without adaptations/modifications - in black and brown

Boot Styles

Boots provided in all of their original packaging and in full resalable condition may be returned but will incur a 30% restocking charge, providing they are returned within 28 days of receipt.

- Ladies' styles on standard lasts (sizes 3-6) without adaptations/modifications - in black, brown and navy
- Men's styles on standard lasts (sizes 8-11) without adaptations/modifications - in black and brown

Non-Returnable Items

All patient-specific footwear (shoes and boots) including made-to-measure, non-standard last fittings, non-standard size footwear (see sizes above), split sizes, fittings, split fittings, special colours, last or upper altered or adapted in any other way are non-returnable.

Single shoes or boots, or worn footwear are non-returnable.

Any footwear requested with any other sole variant to that specified in the sole options table, will not be returnable unless the sole unit is standard for that type of footwear.

Note: If you've received a non-returnable product in a damaged/defective condition, please contact customer services on receipt of your item.

Please contact customer services if you require order forms, any further information or assistance with measurements, adaptations and ordering.

Ladies' Collection

These designs are available in a range of colours, materials, soles and fastening options, offering a stylish and comfortable solution.

The Tred-lite range covers shoe, trainer and boot style options.

Please note: an * indicates a surcharge which is applied to colours that are not part of the standard colour collection. Please refer to the colour swatch for confirmation. Please also note that photos are to demonstrate the style of shoe, and that upper and sole combinations may not reflect the default.

Last Features & Modular Amendments

Standard

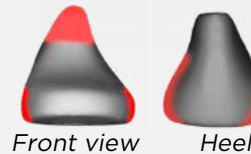

Narrow

Narrow last features compared to Standard: slimmer in heel and joint width, shallower in joint depth, toe depth identical to Standard.

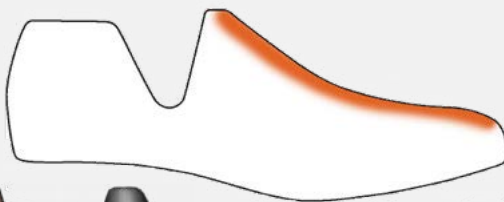

Wide

Wide last features compared to Standard: wider at heel and joint width, deeper at instep and circumference, toe depth identical to Standard.

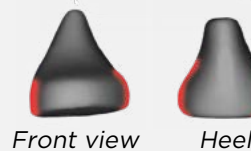

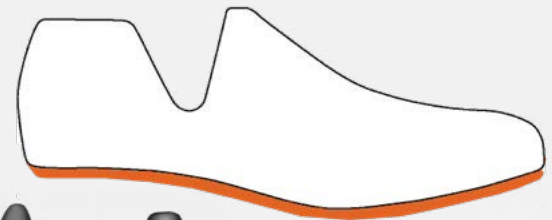

Deep

Deep last features compared to Standard: identical heel and joint widths to Standard, deeper at the joint and toe depth (defining feature), instep marginally deeper than standard (3mm).

Wide & Deep

Wide and Deep - key landmarks wider and deeper than that of the Standard last.

Amend Options

Shoes and boots are available without the sole unit for a rough fitting at no additional cost. The following adaptations are also available:

- Raises
- Rocker soles
- Heel flares
- Heel wedges
- Caliper sockets
- T-straps
- Y-straps
